Powerhouse Ultimo Revitalisation

Works notification

October 2026

Changes to Macarthur Street traffic management

Construction is underway at the Powerhouse Ultimo site. Once complete, the revitalisation will provide world-class exhibitions spaces focused on applied arts and sciences and a major new public domain.

Infrastructure NSW and Richard Crookes Constructions are working with the City of Sydney to improve traffic management on Macarthur Street near the Powerhouse Ultimo site. This busy thoroughfare is used by pedestrians, cyclists, including e-bike riders, vehicles and construction vehicles.

Key dates

From 5 November 2026, for the duration of the project

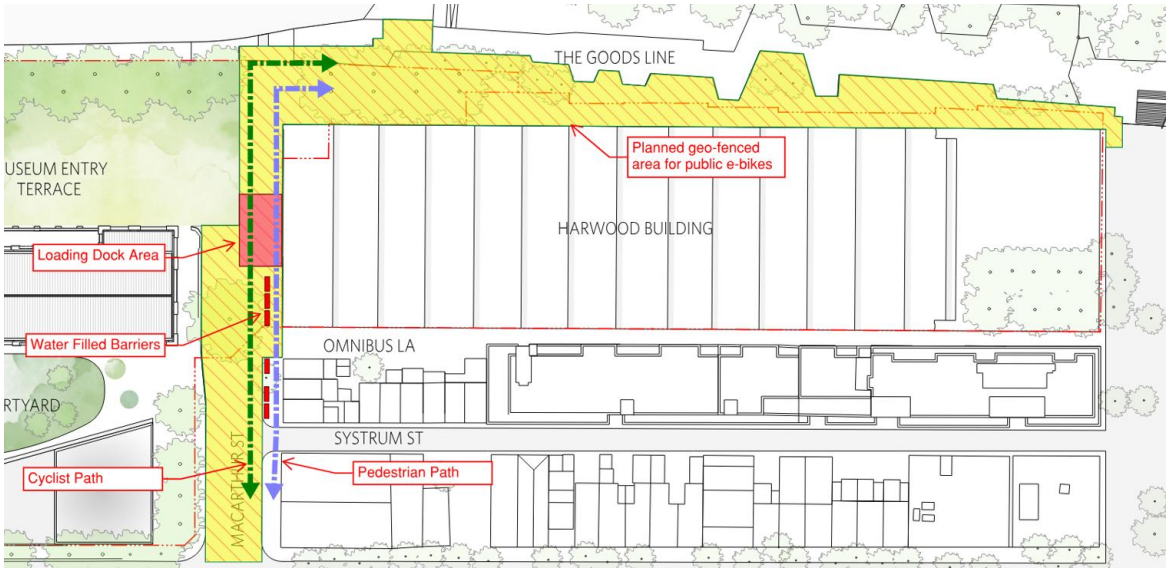

Location

Macarthur Street, Ultimo

Temporary changes to Macarthur Street

From **5 November 2026 and for the duration of the project** the following changes will be made to improve traffic management on Macarthur Street between Harris Street and The Goods Line:

- **Speed limits for public hire e-bikes:** Geofencing technology will limit public hire e-bikes to 10km/hour on Macarthur Street and The Goods Line.
- **Changes to suggested cycling routes:** Macarthur Street will be excluded from Google Maps and Apple Maps suggested cycling routes to encourage cyclists to use alternative routes where possible
- **Temporary safety barriers:** Water-filled barriers will be installed along the section of footpath on Macarthur Street between Systrum Street and The Goods Line to clearly separate pedestrian space from the route used by bicycles, e-bikes and construction vehicles.

Traffic and pedestrian management

During standard construction hours, traffic controllers will be in place on Harris and Macarthur Streets.

Always follow signs and traffic controllers' directions when travelling near the site.

Construction hours

Traffic changes being implemented will not impact approved construction hours:

— Monday to Friday, 7am to 6pm.

— Saturday, 8am to 1pm.

Health and safety

Public safety on surrounding streets around the construction site remains paramount.

Thank you for your cooperation while these safety measures are introduced and for the duration of the project.

More information

We are committed to keeping you informed and regular updates will be provided. Contact us for construction related questions, feedback or complaints:
